Baviaans river rehabilitation meeting

The head of the City of Cape Town Invasive Species Unit, Richard Burns, invites Scott Estate and Baviaanskloof residents to an information meeting on the rehabilitation work in progress on the Baviaans river. The meeting will be held on **Thursday, 26 November** from 17:30 to 19:00. There have been many queries as to how the rehabilitation process will be implemented and this informative evening will clarify the process.

In these complex times of adherence to Covid-19 protocols, please help us arrange an appropriate venue for the number of people who want to attend by confirming your attendance either via phone or WhatsApp to Jemimah Birch on 083 716 1010 or email info.sebcid@gmail.com. Please RSVP by 19 November 2020. Venue to be advised.

Kind regards

SEBCID Interim Board.
